**Effective March 20, 2017:** For your convenience- upon your request at the time of order receipt, Cambridge will transfer other products to South Amboy. The transferred material will arrive within two business days - pending product & trucking availability. There is a \$14.00 per cube fee for the freight to transfer the material. Should the order be canceled after the material is transferred (or not be picked up within 5 business days) the distributor is responsible for the freight cost and will be invoiced \$28.00. This only covers the cost to deliver to Amboy and then return the material back to Cambridge Lyndhurst.
