- Also go to our links located in our homeowner guide section "Knowing the Contractor" and "Knowing when the Installation is Being Done Right"
- Be sure the contractor visits your home before providing the proposal
- Ask for references and visit past projects the contractor has completed

You should be contacted within 72 hours.

Choosing A Color...

WHAT ARE CAMBRIDGE BLENDS?

Cambridge makes available one of the most comprehensive selections of solid and blended colors in the market. The blended colors shown are combinations of two or three solid colors selected by the Cambridge color lab. They are mixed in unequal amounts for an outcome that is truly unique to each pavingstone, and as a result, to every installation as well. Since this is a random process, Cambridge Blends are different in every cube of pavers. Therefore, one color may predominate the other. Cambridge Pavingstones are made from natural, environmentally-friendly material, therefore, variations in color may occur.

ACHIEVING THE BEST COLOR DISPERSION

When spreading Cambridge Pavingstones, solid or blended colors over a wide area, remove units by the band, from top to bottom and use multiple cubes of pavers to achieve optimum results.

MAKING AN ACCURATE SELECTION

Final selections should be made from samples obtained from an Authorized Cambridge Distributor or professional pavingstones and wallstones contractor.
