Easy-To-Use Outdoor Kitchen Planner On Back Side!

THE BEST OUTDOOR LIVING ROOM IDEAS COME FROM CAMBRIDGE

CAMBRIDGE FULLY ASSEMBLED KITCHEN KIT PATIO PLANNER

It's simple... expensive and complex software is not required. All you need is a tape measure and a little imagination. Measure your patio or the area of the patio that will be designated for the kitchen. Pop-out the 4 pieces illustrated on this sheet (Refrigerator Cabinet, Corner Unit, Double Door Cabinet and Grill Cabinet). Plot your outdoor kitchen design by arranging 2 or more of the 4 fully assembled pieces onto the pre-drawn graph below. Each square equals a one sq. ft. (12" x 12") area and the cut out components have been rendered to scale. The diagram will allow you to layout your kitchen configuration on an area up to 20' x 20'.

Grid is to scale: 1 Square = 1 Foot

Total Grid Represents: 20' x 20'

HOW TO ORDER

Step 1.

Complete the diagram using one or all four of the kitchen components shapes that you have cut out below. Tape or glue the cutouts in position on the layout.

Step 2.

Refer to the Color Selection options below to choose your Olde English Wall color.

Color Combination Option A:

- Toffee/Onyx Olde English Wall
- Black Uba Tuba Granite Tiles & Countertop

Color Combination Option B:

- Sahara/Chestnut Olde English Wall
- Venetian Gold Granite Tiles & Countertop

Step 3.

Submit your layout to any Authorized Cambridge Distributor who will order your Fully Assembled Kitchen.

Step 4.

Distributor will copy diagram and fax to Cambridge

Step 5.

Cambridge will custom build the fully assembled kitchen pieces in accordance with your layout. Note: Filler blocks are utilized so that separations where the cabinets meet between the units will not be distinguishable when they are placed together.
